## Dementia Awareness Day

Today Hartburn Primary wore blue and yellow or sportswear to take part in active sessions to raise money for Dementia UK.

A big thank you to Eva for her wonderful suggestion to hold a sponsor day for dementia and another big thank you to everyone for their kind donations! We will update you with the amount raised in next weeks Hartburn Herald.

## Well done Ruby !

Ruby Bromfield Y5 has been selected to play for Stockton District School Football (Year 5/Year 6) and will be representing our school in their match on Saturday.

Good luck Ruby !

## Ruby Bromfield

The Eco team have taken part in an environmental review to identify all of the good things we are doing at Hartburn to help look after our environment. As a team they have identified things that could be improved. They then created an action plan, this will be fed back to all teachers and children. Each year group will be given an area to focus on. Some of these include looking at litter, marine life, pollution, biodiversity and many more

We are also delighted to announce we have been awarded the **Silver Eco-Schools Award**. Over the next few months we will be working towards obtaining the highest award which is the Green Flag. We are all extremely proud of how hard the children have worked to bringing about changes within school enabling us to receive this award. Well done Eco Team!

7th May 2021

## USA Landmarks

Year 3 and 4 have created some excellent models of famous American landmarks. Can you identify which landmarks they have created?

## Our Very Hungry Caterpillars

Nursery children enjoyed learning about caterpillars. They read the story 'The Very Hungry Caterpillar' and watched caterpillars build cocoons around themselves. They are just waiting for beautiful butterflies to emerge

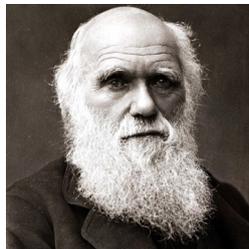

## Setting description of a storm by

**Nathan Knox - Class 14.**

Suddenly, the sky turned grey and the air became icy cold. A storm was coming.

Out of nowhere, the boat started rocking. The waves crashed against the Beagle like a wrecking ball hitting a building.

I (Charles Darwin) was more scared now than I had been in my entire life. The waves were aggressive. Lightning came crashing down from the sky.

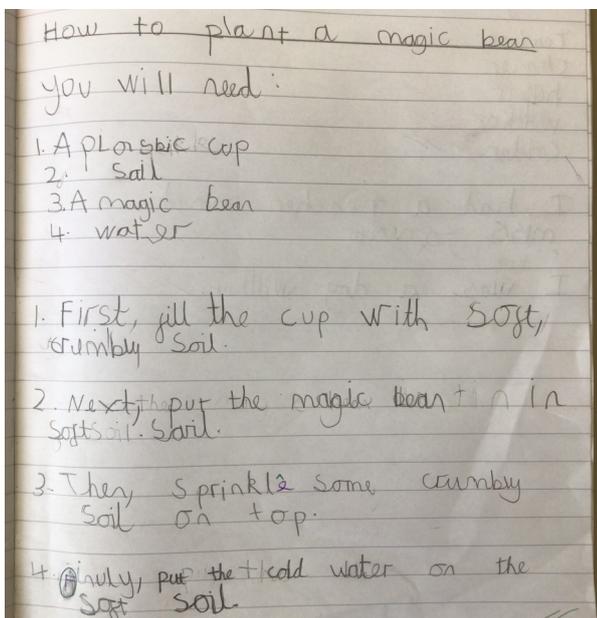

Even though the sea was rocky, the boat kept going.

## How to Plant a Magic Bean

by Lucy Wilson, Class 5

Class 12 had great fun experimenting and finding out all about magnets. They found out that opposite poles attract each other but two south or north poles repel each other.
